### **School Program Tuition Fees**

On average, the cost of education for a special needs student is about \$40,000 per year. Funding comes from a combination of grants from Alberta Education, tuition fees, and fundraising. Tuition costs cover school fees and school supplies. Tuition costs are out-of-pocket costs to parents and are exclusive of any grants we receive from Alberta Education.

### ■ The tuition fees paid by parents for the 2024-2025 school year are \$14,000.00

- If accepted, you will be required to pay this amount
- Sign below to confirm that you are aware of this tuition fee

### **Bursary Support**

There are a limited number of bursaries available from outside agencies to assist economically-disadvantaged families. Please be aware that applying for a bursary does not guarentee that you will receive the bursary.

□ I am interested in applying for this bursary (if accepted, you will be contacted in January of 2024)

### **Income Tax Credit for Tuition**

Tuition paid by parents may be claimed as medical tax credits if certain conditions are met. To do this, a letter written by a medical doctor or chartered psychologist must be submitted with your income tax form in order to be eligible for such tax credits. The letter must clearly state that the student has a diagnosis of Autism or other medical condition that requires the specialized services provided at New Heights School and must be dated prior to enrolment at New Heights. A letter from New Heights confirming enrolment and services provided, along with tuition tax receipts will be provided to you, upon request, prior to February each year. Please contact your tax advisor for clarification.
